## Technology Transfer and Innovation

### Events in technology transfer and innovation field

Enterprise Europe Network carries out a variety of events to promote their activities to companies and organisations at regional, national or European level. The events provide you the opportunity to meet potential cooperation partners during pre-arranged face-to-face meetings, to present your business or technology offers.

Do you have technology profiles in the fields? Please contact [office@ipacv.ro](mailto:office@ipacv.ro) to support you.

### November 2012

- 06 [Enterprise Europe Network Matchmaking at World Travel Market 2012](#) London (United Kingdom)
- 06 [Match-making at Elmia Subcontractor 2012](#) Jönköping (Sweden)
- 07 [Consulting Day South Eastern Europe: Your Chances in Hungary, Romania, Bulgaria and Croatia](#) Ulm (Germany)
- 07 [Company mission: A taste of Romagna. German & Austrian markets enjoy Italian food & wine specialities](#) Ravenna
- 08 [Technet nano Workshop 2012: Micro- & Nano-techn for Energy Effectivisation & Process Control](#) Stockholm
- 08 [Company mission at EIMA International agricultural & gardening machinery Exhibition](#) Bologna (Italy)
- 08 [ECOBUSINESS COOPERATION EVENT 2012](#) RIMINI (Italy)
- 08 [G-Star brokerage event 2012](#) Busan (Korea, Republic of)
- 08 [Danube Region Business Forum 2012](#) Vienna (Austria)
- 11 [Israel HLS 2012, the 2ND International Conference on Homeland Security.](#) Tel Aviv (Israel)
- 13 [6th Slovak Matchmaking Fair 2012](#) Nitra (Slovakia)
- 13 [4th Edition of Urban & Smart Mobility Brokerage event - Modilis 2012](#) Mulhouse (France)
- 13 [Building a concrete future - sustainable construction in the precast industry](#) Weimar (Germany)
- 14 [EuroTier Matchmaking 2012](#) Hanover (Germany)
- 14 [GlobalConnect 2012 Brokerage Event](#) Stuttgart (Germany)
- 15 [CZECHBUS 2012](#) Prague (Czech Republic)
- 15 [Healthcare Brokerage Event MEDICA 2012](#) Düsseldorf (Germany)
- 19 [China-Europe 2020 Climate Change Challenge](#) Birmingham (United Kingdom)
- 20 [Sino Italian Exchange Event - Bilateral Meetings](#) Naples (Italy)
- 20 [Space-MATCH 2012](#) Noordwijk (Netherlands)
- 20 [Cooperation Forum "Biopolymers"](#) Straubing (Germany)
- 21 [Technology and Bussiness Brokerage Event within RENEXPO South-East Europe 2012](#) Bucharest (Romania)
- 21 [Eco-Match 2012 at POLEKO fairs](#) Poznan (Poland)
- 22 [Euro-Mediterranean Business Meetings ECOBAT](#) Marseille (France)
- 22 [AGROCOMPOSITES EUROPE 2012](#) Saint-Quentin (France)
- 22 [Innov'embre: Partnering event Research / Business](#) Lille (France)
- 23 [International Business Meetings CONTACT "denkmal"](#) Leipzig (Germany)
- 26 [Brokerage Event Pollutec Lyon 2012 "GREEN DAYS"](#) Lyon (France)
- 26 [Spotlight on Tech in the City](#) London (United Kingdom)
- 27 [Italian Furniture Design VIRTUAL 3D FAIR](#) Monza (Italy)
- 27 [Eilat-Eilat Renewable Energy and Innovation Conference](#) Eilat (Israel)
- 27 [AgroMatch Manure at Agromek 2012](#) Herning (Denmark)
- 27 [VINITECH SIFEL](#) Bordeaux (France)

- 27 [SYRREN 2012 - Super Yachts Refit & REpair Brokerage Event](#) Marseilles (France)
- 28 ["Mission for Growth" – Brokerage event at "CAT 2012" Business & Technology Convention](#) Tunis (Tunisia)
- 29 [LEaN2012 - International brokerage event on Logistics, Energy and Networking](#) Genova (Italy)
- 29 [Tech Industry 2012](#) Riga (Latvia)
- 29 [CeBIT Eurasia 2012 Matchmaking Event](#) Istanbul Istanbul (Turkey)

#### December 2012

- 06 [Brokerage Event on Water Technologies in 6-9 December in Bursa / TURKEY](#) Bursa (Turkey)

#### January 2013

- 24 [Matchmaking Event between European Union, Latin America and the Caribbean](#) Santiago (Chile)

#### February 2013

- 15 [Company Mission to Ambiente](#) Frankfurt/Main (Germany)
- 19 ["HCJ Fair 2013" - B2B meetings at the hospitality industry tradeshow in Japan](#) Tokyo (Japan)

#### March 2013

- 05 [CeBIT Future Match 2013](#) Hannover (Fairground) (Germany)
- 07 [IndustryMatchMaking – IMM2013](#) Sofia (Bulgaria)
- 07 [Iceland Geothermal Conference](#) Reykjavik (Iceland)

#### April 2013

- 09 [HANNOVER MESSE 2013: Technology Cooperation Days on Industrial Energy Efficiency](#) Hannover (Germany)
- 11 [Biopesticide Market Opportunities](#) London (United Kingdom)
- 12 [Vision 2013](#) Freiburg, Germany (Germany)

#### June 2013

- 12 [EEN Brokerage Event at "GR Business Days" in Luxembourg](#) Luxembourg (Luxembourg)

#### **10<sup>th</sup> Nordic Venture Forum, 7 November 2012, Copenhagen, Denmark**

The Nordic region is recognized as the most entrepreneurial region within Europe by the OECD and every year, the **Nordic Venture Forum** showcases the highest potential companies in ICT, Lifesciences and Cleantech.

The event has established an impressive history of over 60% of presenting companies raising new investments following participation. Over the years, the forum has established itself as the event that best promotes the innovative, attractive and rewarding investment environment of the Nordic and Baltic countries.

**More...** <http://www.e-unlimited.com/nvf>

#### **2<sup>nd</sup> Balkan Venture Forum, 22-23 November 2012, Belgrade, Serbia**

The Balkan Venture Forum is a leading regional investment & innovation forum. It showcases innovative companies to active investors, promotes innovation, entrepreneurship, investment readiness, access to finance in the Balkans.

Belgrade is welcoming our entrepreneurial community. It's got a recent Innovation fund to show for, tons of bright people, it's big/central, so it looks promising! This time we are doubling the content, with the second programme track in preparation.. And in a big upcoming startup center like Belgrade, it is poised to be a landmark event for the region. Expect many heavyweight sharks on the networking floor, even better [apply for the pitching competition](#) or for a 1on1 meeting.

### Virtual Cluster Initiative “The essence of competitiveness”

Competitiveness is currently ranking high on the agenda of policy makers. In particular, ICT has put policy makers in a fast-changing environment, where new technologies and new businesses practices call for a continuous rethinking, which: - is innovative, - will enhance EU targets for sustainable growth, - will shift towards a resource-efficient, low-carbon economy and allow a more competitive low-carbon economy (Green), - will respond to globalization, - will develop new green technologies, - will improve the business environment, in particular for SMEs, - outlined in the VIENNA CLUSTER MANIFESTO - to easily mobilise different competences, build cross-sectoral linkages through cooperation, promote innovation, clusters can be instrumental to facilitate/support the emergence of new and globally competitive industries in EU, - which may result from key enabling technologies, radically new business models, cross-sectoral linkages.

**More...** [www.Virtuelle-Cluster-Initiative.de](http://www.Virtuelle-Cluster-Initiative.de)

## EUREKA Clusters

EUREKA ‘Clusters’ are long-term, strategically significant industrial initiatives. They usually have a large number of participants, aim to develop generic technologies of key importance for EU competitiveness mainly in ICT, energy and more recently in the biotechnology sector. Clusters bring together large companies, often competitors, along with SMEs, research institutes, universities, sharing both the risk, benefits of innovation. They focus on developing, commercially exploiting new technologies. Their goal is to ensure that Europe retains its leading position in the world market.

## Intellectual Property ; Standards

### EPO Patent Information Conference, Hamburg, 6-8 Nov. 2012

The conference brings together the people who use patent information in their daily work with those who develop it. You can catch up on developments in patent information by going to the conference presentations, smaller tutorial sessions and training

courses. If you're looking for an opportunity to put your issues on the table and discuss patent information with other members of the professional community, then you will want to register for the discussion rounds and take the floor in the question-and-answer sessions. For networking opportunities, visit the exhibition area – where all the major patent information providers are present – or attend the lively evening events.

**More...** [www.epo.org/pi-conference](http://www.epo.org/pi-conference)

### IP Summit: Patents, 6-7 December 2012, Brussels, Belgium, 10-11 December 2012, Alicante, Spain

The IP Summit 2012 intends to bring its building block to making IP progress. That's why for its 5th edition, it develops and branches out with four days of intensive conferences and networking around "**Patents**" & "**Trademarks**".

Following the success of last year's Summit, EUREKA will once again this year partner with Premier Cercle. The event, has become a highlight for IP professionals and an excellent occasion to share knowledge, experience on IP practice. Combined with networking experience, participants will gain practical business advice over the course of dozens of testimonials from knowledgeable industry experts.

**More...** <http://www.premiercercle.com/sites/ip2012/brussels2012/index.php>

### CPC tops agenda for commercial providers

The Co-operative Patent Classification (CPC) will be a new challenge for patent searchers when it enters into force on 1 January 2013. Ahead of that date, commercial providers of patent information are facing a challenge of their own, as they race to get their products "CPC ready".

**More...** [www.cpcinfo.org](http://www.cpcinfo.org)

## Research

### Key Enabling Technologies – A bridge to growth and jobs

The EU is the only region to master all six KETs (micro-/nanoelectronics, nanotechnology, photonics, advanced materials, industrial biotechnology, advanced manufacturing technologies). Over the years, EU's strong R&D base has championed all six KETs, maintaining a leading position with 32 % of the global patent applications between 1991-2008. Despite these strengths, the EU is not capitalising on its knowledge base: the EU's major weakness lies in translating its knowledge base into goods/services/EU patents are, exploited outside the EU.

The urgency to act quickly is further demonstrated by recent developments in the *machine tool industry*, one of the key KETs application sectors: the EU share in global production dropped from 44% in 2008 to 33% in 2010, to the advantage

of Asian competitors, namely China (including Taiwan), Korea. This lack of KETs-related manufacturing is all the more detrimental to the EU for two reasons. Firstly, in the short term, opportunities for growth, job creation will be missed; secondly, in the long term, there may also be a loss of knowledge generation, because R&D, manufacturing are linked, mutually reinforcing and, thus, often take place in close proximity to each other. [The EU strategy for key enabling technologies – a bridge to growth & jobs](#) outlines a strategy, concrete steps aiming to four main objectives:

- focus EU policy, adapt their instruments in the next *multi-annual financial framework* on research & innovation, cohesion policy, prioritise EIB lending activities in favour of KETs deployment;
- ensure *coordination of EU and national activities* so as to achieve synergies and complementarities between those activities and the pooling of resources where necessary;
- establish simple, effective governance structures, a *coordination group within the EC*, an external advisory *KETs Issues Group* which will ensure implementation of the KETs policy, exploitation of synergies at different levels.
- *mobilise existing trade instruments* to ensure fair competition and a level international playing field.

## Innovation and Entrepreneurship

### Do you think that R&D-performing SMEs are just a niche?

Report shows the surprisingly important size of research-performing SMEs sector in EU. A recent report commanded by the European Commission advocates for a strong support to R&D-performing SMEs, revealing the important role that they already play in the economic recovery and the significant size of the sector.

The report [EU SMEs in 2012: at a crossroad](#), brings to light the fact that small businesses active in technology-intensive sectors are weathering the current economic crisis better than their low-tech counterparts, boosting the economy.

SMEs in the sector of knowledge-intensive services account for as much as 20.9% of the total of small businesses, while small companies in the high-tech/medium-tech manufacturing sectors represent a total of 238,851 enterprises in the EU. Far from being a simple niche, the sector embodies a surprisingly large number of EU businesses, which also fulfil a key role in the European economy. A clear correlation between economic growth and the number of innovative and high-tech SMEs in each EU member state is demonstrated by the report.

This conclusion of the study together with the high figures associated with the size of the sector in the European economy demonstrate the importance of pan-European funding programmes such as [Eurostars](#), the first European funding and support programme to be specifically dedicated to research-performing SMEs.

### Growing Business with Innovation - The Importance of Innovation Strategy and Its Key Focal Points

The successful execution of an intervention strategy would be incomplete without the thorough & detailed process of innovation strategic analysis. Many organizations will choose to perform a gap analysis in order to identify, prioritize change areas which might include innovation strategy context, learning plans, flexible organization arrangements, transparent communication practices just to name a few.

Through the use of the appropriate innovation strategic analysis, companies can chart their course and understand how to approach their process while following the most appropriate innovation strategy context.

Through the belief in the process, the organization will be able to successfully chart and navigate its intervention strategy context and ensure that their message and top-down leadership has full buy-in. Since these innovation strategies tend to be more longer-term projects, convincing individuals of the importance to stay the course is absolutely essential.

### What are the most important criterias to a useful idea management tool?

We are looking into a way to evaluate the loads of different SW solutions that support idea management and how they differentiate. We first need to get the evaluation criterias in place.

- Engagement- who can participate, can you create different enterprise-scale communities for employees, customers, etc? Incentives and features to promote/sustain participation (tags, activity feeds, points, etc)
- Idea Execution-how can you process a large volume of ideas (get from 1000-50) and how do you determine which are most likely to reap results. I.e. proposals, private collaboration, and multi-round scordcarding.
- Reporting and Tracking Results- end to end reporting on innovation process from initial concept through results.
- Professional services- consulting on setup and best practices for innovation programs.
- Integrations- apis as standard built out offerings like sharepoint, facebook, twitter, etc.
- Security- protections and certifications

### Growing Business with Innovation - Innovation Strategic Analysis for Business

Many businesses, the lifecycle of their products do not last much anymore unlike in the olden days, hence the need for Innovation Strategic Analysis. Any company that desires to stay on top of the game as far as products competitiveness in the market place is concerned must utilize this strategy effectively. A recent survey conducted by major business

research institutes indicated that business and firms on the S&P 490 often had a life span of just fourteen years in 2000, unlike 1900s business and products that had a lifetime of 55-60 years.

Any business that is planning for a long-term future has to embrace change and new products modification.

In the world of business, innovation is referred to as a blind leap, because sometimes you cannot accurately predict the outcome of your inputs. Due to variations in many innovation processes in business, it is normally very difficult to come with clear-cut guidelines for any business innovation. There are always some conditions that are deemed as vital, which can help you to come up with a solid plan for innovation.

You try to learn about **innovation strategy development**, how you can use it in your business.

### Innovation Communication – Enabler of Innovation as Strategic Change

In the Open Innovation economy the objective is to make innovative capability visible, facilitate the flow of ideas and support the success of innovation portfolios of organizations and collaborative networks. So, innovation has become a necessity for almost every company involved in global business. But does this lead to an overuse of the term “innovation” from a communication perspective?

Innovation communication implies a strategic dimension; it needs to be understood from a strategic management perspective. Innovation communication can bridge the gap between strategy, innovation, communication, communication management approach that might be a way “to begin describing innovation tasks in strategic terms”. This article describes five main reasons for developing and leveraging innovation communication from a strategic management perspective (Pfeffermann, 2011 & [Presentation: Innovation Communication from a Management Perspective](#),

### Are you developing KBBE proposals on topics "Diversification of fish species & products in aquaculture" & "The CO2 algae biorefinery"? We have 1 engineering partner for you from Barcelona!

The Group AQUAL (Aqualculture & Aquatic Product quality - [http://deab.upc.edu/research/groups-of-research/aqual/aqual-1?set\\_language=en](http://deab.upc.edu/research/groups-of-research/aqual/aqual-1?set_language=en)) of the Universitat Politècnica de Catalunya is looking forward to joining two KBEE consortiums: 1) KBEE.2013.1.2-09: Diversification of fish species & products in aquaculture; 2) KBEE.2013.3.2-02: The CO2 algae biorefinery. AQUAL is specialised in applied engineering for marine aquaculture, namely:

- Hydrodynamic characterisation of tanks
- Environmental parameters control
- Fish behaviour in intensive rearing conditions
- Solid waste management
- Recirculation Aquaculture Systems (RAS)

• Biofiltration, Sustainability

• Design of facilities

AQUAL has a complete set of four laboratories: a) Fluid engineering laboratory, b) Husbandry fish laboratory (remote monitoring and control system), c) Biotechnology laboratory and Analysis unit.

**Contact:** Daniela Gomes, [daniela.gomes@aristos.cat](mailto:daniela.gomes@aristos.cat)

### **Are you developing proposals on topics KBBE.2013.2.1-01, KBBE.2013.2.2-01 & KBBE.2013.2.2-03? We have a SME partner for your consortium!**

The Spanish-based company AB-BIOTICS S.A. is urgently searching for consortiums to join under the following topics:

• KBBE.2013.2.1-01: Impact of food & nutritional behavior, lifestyle, socio-economic environment on depression, proposed remedial

• KBBE.2013.2.2-01: New technologies to study brain function in relation to eating behavior actions

• KBBE.2013.2.2-03: Food-based solutions for eradication of vitamin D deficiency, health promotion throughout life cycle

**Contact:** Daniela Gomes, [daniela.gomes@aristos.cat](mailto:daniela.gomes@aristos.cat) ; [www.ab-biotics.com](http://www.ab-biotics.com)

### **Partner search - FP7 MML - Challenge 4: Societal engagement for integrated urban development**

The partnership is already strong and quite diverse in terms of specific capabilities and geographic distribution. Ideally, we're looking for 5-6 more partners, particularly local and regional governments and small and medium enterprises, preferably but not necessarily from Central, Northern and Eastern Europe.

In particular, we're looking for partners to take the lead of the external evaluation work package. We're also looking for partners interested in contributing to work packages on governance, climate adaptation, biodiversity, mobility, technological innovation and communication in sustainable urban and regional systems. Each partner should act as a bridge towards its local community (local governments, civil society, industry, research, etc.).

**Contact:** Bernard Stree, [bernard.stree@carinna.fr](mailto:bernard.stree@carinna.fr)

### **Partner Search from Italy for a Concert-Japan project - Solar energy storage by photoconversion to hydrogen**

The Institute of Molecular Science and Technologies (ISTM) was established on September 2000 by merging seven CNR Research Centres (4 in Milano, 2 in Padova, 1 in Perugia). It is a distinguishing feature of the ISTM activity to cover the most relevant fields of chemical sciences, as ISTM staff are engaged in research into the following fields:

- Theoretical and Experimental Modeling of Molecular and Nanostructured Systems.
- Design, Synthesis and Characterization of Precursors and Functional Molecules.
- Development, application of new technologies to chemistry, material science, informatics, telecommunications, and safeguard of cultural heritage.

The idea consists in the coupling of direct conversion of solar energy to hydrogen and its storage in one device. Usually solar energy is converted to electricity, by photovoltaics, and then to hydrogen by electrolyzers, hydrogen can be further stored. In our project we wish to assess the possibility to convert directly in one step solar energy to hydrogen by photocatalysis to obtain more compact and simple devices.

The development of active photocatalysts and of effective materials for H<sub>2</sub> production and storage are still two important challenges. In this first stage of the project we will focus mainly on the development of advanced materials.

### **Looking for a Romanian partner in order to apply at a contest of the Ministry of Culture & Media - Serbia**

The Historical Archive from Negotin is looking for a Romanian partner in order to apply at a contest of the Ministry of Culture and Media of Republic of Serbia. The theme is Cultural Heritage in Serbia and the position of Serbian, Romanian and Bulgarian people under the occupation of Turks in the first half of nineteenth century.

The deadline for project proposal is 31.10.2012. so we urgently need Romanian partner. Project implementation will be only in Serbia and the partner organization will be obligated to come to Serbia and participate at the forum. Everything will be provided for four persons from partner organization - historical tours, food, beverage, accommodation.

**Contact:** Suzana Kiridzic, Municipality of Negotin, [suzana.kiridzic@gmail.com](mailto:suzana.kiridzic@gmail.com)

### **Call for Proposals for the CONCERT-Japan Pilot Joint Call on Research and Innovation, deadline 15 November**

The CONCERT-Japan consortium is glad to announce the launch of a Pilot Joint Call on Research and Innovation in the fields of Efficient Energy Storage and Distribution & Resilience against Disasters. Through the Joint Call, multilateral research projects with an innovative dimension will be funded for a period of 2 years. The research projects are also expected to have mobility, networking components apart from the core research component.

The call is open for proposal submissions until **15 November 2012** and will be funded by the budget allocated by each participating national/regional funding organization. Therefore, each participating funding organization reserves the right to apply its national/regional funding regulations. Each project consortium applying for this call should consist of at least 3 partners, 1 from Japan and 2 from two different EU countries participating in the call.

### **Celtic-Plus Calls for Proposals in 2013**

Celtic-Plus announces again two calls for proposals in 2013. For your proposal planning you should already take note of these dates:

- Spring Call 2013: Submission deadline is **23 April 2013** (open from January 2013)
- Autumn Call 2013: Submission deadline is **14 October 2013** (open from July 2013)

**More...** [Celtic-Plus Call Webpages.](#)

### **IMI 8th Call for proposals – outlines of all indicative topics now online**

The Call includes two topics under consideration under the IMI programme **Combating Antibiotic Resistance: New Drugs for Bad Bugs** (ND4BB):

- Topic 1C: Innovative Trial Design & Clinical Development (work package 6 of Topic 1)
- Topic 3: Discovery and development of new drugs combating Gram – negative infections

Other topics under consideration:

- Developing an aetiological based **taxonomy of human disease**
- European **induced pluripotent stem cell** bank

All information regarding future IMI Call topics is **indicative and subject to change**. Final information about IMI's future Calls will be communicated after approval by the IMI Governing Board.

**More...** <http://www.imi.europa.eu/content/8th-call-2012>

### **Public consultation on FET**

For more than 10 years now, [Future and Emerging Technologies](#) at the European Commission has been investing in research into many of the technologies that EU needs to stay competitive, to improve its citizens' quality of life. As part of our effort to understand what will be the game-changing technologies of the next decades, we would like to hear from scientists, researchers, innovators, entrepreneurs, members of civil society. We are in listening mode – please share with us your views on which are the key scientific and technological challenges that EU faces in the next 20 years.

Which areas of science and technology hold the keys to the future prosperity of our citizens and our societies? What are the questions and challenges around which science and technology should be mobilised to create a better future for all of us? What are the big new ideas, paradigms that will put EU on a new road towards future technological competitiveness? Please help us to co-invent the future and take some time to reflect on this.

**More...** [http://cordis.europa.eu/fp7/ict/fet-proactive/fetconsult2012\\_en.html](http://cordis.europa.eu/fp7/ict/fet-proactive/fetconsult2012_en.html)

## **Policy**

### **European Commission targets barriers to Single Market for research & innovation**

The EC has set out concrete steps Member States should take to achieve the EU Research Area (ERA), a Single Market for research & innovation in EU. The goal is to enable researchers, research institutions, businesses to better move, compete, co-operate across borders. This will strengthen Member States' research bases, increase their competitiveness and allow them to work together more effectively to tackle major societal challenges, such as climate change, food and energy security and public health. To help achieve the EU Research Area, the EC has also signed a Joint Statement & Memorandums of Understanding with organisations representing key research organizations, research funding bodies.

### **Eurostat Regional Yearbook 2012 and Online Interactive tools launched**

Eurostat, the statistical office of the European Union, has just published the **Regional Yearbook 2012** and an accompanying online interactive tool. Both of these resources allow users to explore statistics relating to key regional development indicators such as population density, employment, R&D spending, other economic factors. Data comes from all 27 EU Member States, the four EFTA countries (Iceland, Liechtenstein, Norway, Switzerland), the acceding country (Croatia), 3 of the candidate countries (Montenegro, the Former Yugoslav Republic of Macedonia, Turkey).

The yearbook contains many separate maps, and so a new online tool has been developed to make viewing of this information in a graphical form more interactive and flexible.

The **Eurostat regional yearbook 2012** includes fourteen chapters on economy, population, health, education, labour market, structural business statistics, tourism, information society, agriculture, transport, science, technology & innovation, European cities, coastal regions and territorial typologies. **Further information**

- Full press release, information tables: [http://europa.eu/rapid/press-release\\_STAT-12-143\\_en.htm?locale=en](http://europa.eu/rapid/press-release_STAT-12-143_en.htm?locale=en)
- Book: [http://epp.eurostat.ec.europa.eu/cache/ITY\\_OFFPUB/KS-HA-12-001/EN/KS-HA-12-001-EN.PDF](http://epp.eurostat.ec.europa.eu/cache/ITY_OFFPUB/KS-HA-12-001/EN/KS-HA-12-001-EN.PDF)

- Interactive online tool: <http://ec.europa.eu/eurostat/statistical-atlas/gis/viewer/>

### **Trends in Transport: 2012 edition with latest data**

Authoritative, up-to-date statistical data on global transport developments can be found in the latest edition of the Forum's Annual Trends in Transport publication. How have the passenger and freight transport sectors evolved in recent years and during the crisis? And what about road safety? This pocket-sized brochure presents data on global trends in the transport sector with the latest figures on the impact of the recent economic crisis.

**More...** <http://internationaltransportforum.org/>

### **Strategy and Progress Reports on Western Balkan Countries, 2012**

The EC adopted its 'Enlargement package' - a set of documents explaining its policy on EU enlargement and reporting on progress achieved in each country. This year's package includes the [2012 Enlargement Strategy Paper](#) which sets out the way forward for the coming year, takes stock of the progress made over the last twelve months by each candidate country and potential candidate. The package contains the so-called Progress Reports in which the Commission services present their assessment of what each candidate and potential candidate have achieved over the last year.

**More...** [http://ec.europa.eu/enlargement/countries/strategy-and-progress-report/index\\_en.htm](http://ec.europa.eu/enlargement/countries/strategy-and-progress-report/index_en.htm)

## **Events**

### **International Conference on Education Reform & Management Innovation, 4-5 December 2012 Shenzhen, China**

The objective of ERMI 2012 is to provide a forum for researchers, educators, engineers, government officials involved in the general areas of Education Reform & Management Innovation to disseminate their latest research results, exchange views on the future research directions of these fields. All accepted papers will be published by Information Engineering Research Institute, USA (<http://www.ier-institute.org/>), ISBN:978-1-61275-037-8 which will be indexed by CPCI-SSH, submitted for indexing by EI Compendex. Selected papers will be published in the following journals: Social Science Letters [ISSN:2163-4130], Advances in Mathematical & Computational Methods [ISSN: 2160-0643], Advances in Mechanical Engineering [ISSN: 2160-0619], Information Engineering Letters [ISSN: 2160-4114]

### **Cultural Conference Multiculturalism, the Global Debate: Strengthening Intercultural Relations, Berlin, 7-9 Nov**

Held parallel to "23rd Anniversary to the fall of the Berlin Wall. The Conference will offer a wide diversity of perspectives on the issue of intercultural relations internationally with particular focus on Germany. During the Conference, participants/speakers will discuss, create, provide a proposal document that will be presented to the international community on how to overcome the challenges in the process of multiculturalism, will offer best practices to achieve a successful/harmonic multicultural society. In addition the event will examine different examples and best practices of Cultural Diplomacy that might be applied in different contexts.

**More...** [www.cultural-bridges-in-germany.org](http://www.cultural-bridges-in-germany.org)

### **Conference on Nuclear Fission Research for a low carbon Economy, 26-27 February 2013, Brussels**

The Conference are organised by the EC & the EU Economic and Social Committee. The conference will also explore the results of a study carried out in 2012 on "benefits and limitations of nuclear fission research for a low carbon economy".

**More...** <http://www.eesc.europa.eu/?i=portal.fr.events-and-activities-symposium-on-nuclear-fission>

### **1<sup>st</sup> Virtual International Conference on Advanced Research in Scientific Fields, ARSA-2012, 3-7 December 2012**

ARSA-virtual conference gives you a great opportunity to participate in the fully fledged, scientific, professional conference without personal participation. ARSA Conference is designed for all scientific groups. The conference will bring the scientific debate among the scientists. At the virtual conference, you have access to all articles in the conference at any time, can use virtual discussion with the author of any article at any time.

**More...** [www.arsa-conf.com](http://www.arsa-conf.com)

### **SMEs Management & Development, 6-21 March, 2013, Galilee International Management Institute, Israel**

The Galilee International Management Institute announce the opening of registration for the SMEs Management & Development Programme 6-21 March, 2013. Participants learn how to successfully build a business/financial plan, how to market SMEs in the local/international markets by using traditional marketing techniques along with internet/social media marketing, supervise projects and apply Project Management software in order to overcome challenges. The programme will offer a variety of lessons/study tours/a chance to connect, work along SME professionals from around the globe.

### **21<sup>st</sup> European Biomass Conference and Exhibition, Copenhagen, Denmark, 3-7 June 2013**

For over 30 years now, the European Biomass Conference & Exhibition (EU BC&E) has combined a very renowned international Scientific Conference with an Industry Exhibition. The event is held at different venues throughout EU, ranks on top of the world's leading events in the Biomass sector. It provides an high-level scientific programme, parallel events which attract participants from a wide ranging background: researchers, engineers, technologists, standards organisations, financing institutions, further. Such a global platform of current knowledge in turn attracts industrial exhibitors, making the Conference events a significant tool for technology transfer & innovation.

### **4<sup>th</sup> International Conference on Clean Electrical Power, ICCEP 2013, Alghero, Sardinia, Italy, 11-13 June 2013**

The aim of the Conference is to promote a Forum, where people involved with clean electrical power generation may compare their experiences and present solutions found for actual and further requirements. Prospective authors are invited to submit papers, outside the listed topics, if the themes are within the scope of the Conference.

Accepted papers will be included in the Conference Proceedings published by IEEE on IEEE Xplore.

**More...** [www.iccep.net](http://www.iccep.net) ; [www.iccep.net/cfp.pdf](http://www.iccep.net/cfp.pdf)

### **8<sup>th</sup> International Joint Conferences on Computer, Information, Systems Sciences & Engineering (CISSE 2012), December 7 - 9, 2012, University of Bridgeport, USA**

CISSE 2012 provides a virtual forum for presentation and discussion of the state-of-the-art research on computers, information and systems sciences and engineering. CISSE 2012 is the eighth conference of the CISSE series of e-conferences. CISSE is the World's first Engineering/Computing and Systems Research E-Conference. CISSE 2011 received more than 300 submissions, the final program included 105 accepted papers, from more than 80 countries.

### **8<sup>th</sup> Symposium EU Funds 2013, Transition to the next programming period 2014-2020, 11-13 March 2013, Berlin**

The European Annual Symposium EU Funds 2013 is clearly focussing on how to manage the transition to the next programming period 2014-2020. Topics include:

- The main elements of the new Cohesion Policy - what do they mean in practice?
- Get practical advice on how to set up Operational Programmes within the new funding regime/ensure max absorption
- Learn how to make best use of the new integrated approach securing that the various funds achieve coherent goals

**More...** detailed brochure information [here](#) ; direct registration [online booking form!](#)

### **European Seminar Smart Specialisation Strategies: the new Ex-Ante Conditionality, 2014-2020 Programming Period, 19-20 November 2012, Berlin, Germany**

- Develop your practical skills to design a Research & Innovation Strategy for your Operational Programme
- Find out the real specialisation fields of your region, identifying advantages/strengths/priorities in a group work session
- Receive the latest update on Smart Specialisation from the European Commission
- Get a hands-on perspective with lessons learnt and case studies from practitioners around Europe
- Learn how to implement cooperative frameworks and aligned interests for all stakeholders in a practical workshop
