Technology Transfer and Innovation

Events in technology transfer and innovation field

Enterprise Europe Network carries out a variety of events to promote their activities to companies and organisations at regional, national or European level. The events provide you the opportunity to meet potential cooperation partners during pre-arranged face-to-face meetings, to present your business or technology offers.

Do you have technology profiles in the fields? Please contact office@ipacv.ro to support you.

December 2012

- 07 [BioMech - non pharmaceutical innovations in medicine and wellbeing](#) Rijeka (Croatia)
- 08 [Brokerage Event on Water Technologies in 6-9 December in Bursa / TURKEY](#) Bursa (Turkey)

January 2013

- 24 [Matchmaking Event between European Union, Latin America and the Caribbean](#) Santiago (Chile)
- 28 [Green Ventures - International Partnership Forum for Environmental and Energy Technologies](#) Leipzig (Germany)

February 2013

- 04 [International WIND Matchmaking Event - EWEA 2013 Annual Event](#) Vienna (Austria)
- 18 [Company Mission to Ambiente](#) Frankfurt/Main (Germany)
- 19 ["HCJ Fair 2013" - B2B meetings at the hospitality industry tradeshow in Japan](#) Tokyo (Japan)
- 26 [CONTACT: Business Meetings](#) Leipzig (Germany)

March 2013

- 05 [CeBIT Future Match 2013 Hannover \(Fairground\)](#) (Germany)
- 07 [IndustryMatchMaking – IMM2013](#) Sofia (Bulgaria)
- 07 [Iceland Geothermal Conference](#) Reykjavik (Iceland)

April 2013

- 09 [HANNOVER MESSE 2013: Technology Cooperation Days on Industrial Energy Efficiency](#) Hannover (Germany)

InfoDay FP7 Environment Research- water innovation demonstration projects, 15 January 2013, Brussels

The European Commission (Research & Innovation DG - Directorate Environment) is organising an InfoDay on FP7 Environment Research in the specific field of "water innovation demonstration projects" on 15 January 2013 in Brussels. The event will focus on the Call FP7-ENV-2013-WATER-INNO-DEMO of the 2013 Work Programme. It aims to provide guidance on the preparation of proposals, to update proposers on recent progress by the European Innovation Partnership (EIP) on Water and to allow for brokerage amongst the participants.

Mission for Growth: opportunities for EEN clients in Chile and Peru, 23-26 January 2013

It is a company delegation accompanying Vice-President of the EC, Commissioner *Antonio Tajani* to Chile and Peru. On the agenda: B2B meetings, meetings with high level decision makers, business conferences, [the 4th Business Summit of the Community of Latin American and Caribbean States – European Union \(CELAC-EU\)](#). It is a great opportunity to help your clients set foot into these Latin American growth markets. This Mission for Growth has as three objectives:

1. to promote sustainable and inclusive growth in the European Union and the visited countries;
2. to help EU companies, including SMEs, to exploit business opportunities in the countries concerned; to this end political agreements as basis for further cooperation in various sectors under Vice President Tajani's responsibility will be signed;
3. to promote EU industry in targeted sectors by organizing matchmaking events with local entrepreneurs and by participating in major events that take place in these countries during the visit.

The presence of individual CEOs/entrepreneurs interested in cooperation with Peru and Chile in the delegation will be the key for the success of the missions. To participate at EU-CELAC B2B on 24 January 2013, you should individually register on: <http://www.b2match.eu/celacue/participants/new>. To participate at Business Summit on 25 and 26 January 2013, you should individually register on <http://www.celacue2013.cl/en/inscripcion-y-acreditacion/informacion/>

Celtic-Plus Event 2013, Kayseri, Turkey, 6-7 March 2013

Celtic-Plus will organise its next Annual Event in Kayseri, Turkey, on 6-7 March 2013. This year, the Event is organised in conjunction with the EUREKA Turkish Chairmanship meetings of the EUREKA National Contact Points and High-Level Group representatives; it will provide an excellent opportunity to discuss projects and related issues with high-level people from public authorities from all EUREKA countries. The Event will include as usual an exhibition showing the achievements of completed and running Celtic and Celtic-Plus projects, as well as presentations and panel sessions.

COST Event - Social Robotics and its Sustainability, Bruxelles, 10-13 June 2013

Three COST Domains have joined forces to discuss innovative research, ideas describing rigorous scientific, sociological, psychological/philosophical advances in social robotics with a special focus on sustainability, as well as the applied latest technologies in the interactions, communications with humans, their acceptability by different types of users.

Covered topics will include the evolution of the field, including all the transdisciplinary stakeholders (coming from engineering to the social sciences), the models of society embodied in social robots as well as the communication and emotional impact they might generate in users and in the general public.

Clusters

Business Model for each Country and Targeted Industry in that Country

The Business Offer that I am making to each Country is:

1. As Incentive, each Strategic Partner will receive a free Exhibition Booth by placing 10 Exhibitors on the Exhibition
2. once 15 Exhibitors are reached a Hall directly representing that Country
3. once 30 Exhibitors are reached a entire Exhibition representing that Country with it's own URL: Virtual-Cluster-Initiative
4. as the Exhibitor number increases the incentives increase
5. Project Managers of each Country will have the opportunity to contact directly to Project managers of each country. Enabling a quicker connection to your target Market in that Country.
6. Project Managers of each Country will have the opportunity to participate in the continuous development of the Business Model insuring it is tailored to their needs.
7. Project Managers of each Country will have the opportunity to create their own Pricing mechanism.
8. Some Project Managers are making a package deal to potential Companies in combination with their normal monthly dues: as Associate Member, Premium Member, Gold Member, or depending on the Company employee or yearly turnover size. The Project Manager of that Country is free to develop which Pricing Mechanism is most acceptable in that country. We have designed this Initiative setting a Framework for all Chamber-of-Commerce's / Cluster Managers / Business Park Managers to assist in their duties to form business network, e.g., a local organization of businesses whose goal is to further the interests of businesses economic development. I wish to enhance your services by Collaborating, visualizing SMEs/Clusters around the world, setting a Framework/environment which would assist in provided services.

7th European conference on sustainable cities & towns, Geneva, Switzerland, 17-19 April 2013

The Conference, having as thema "A green & socially responsible economy: a solution in times of crisis?" will bring together local/national governments, UN, EU institutions, business, science institutes, research & development entities from all over EU. The Conference comes at a moment when the world's attention to the exemplary role of local governments in sustainable development may never have been as extensive, driven partly by the urgent need to find lasting solutions to present crises, both financial and environmental.

This is your opportunity to be part of an event that will mark a milestone for EU's local governments in their quest to achieve sustainable communities and which will allow you to exchange experiences and good practices. The Conference will explore sustainability in all areas of public administration and will try to identify effective institutional mechanisms to tackle the current financial and environmental crises.

Perm: cooperation inside clusters and interindustry links key for cluster development in Russia

The Perm Cluster Conference on "Competitiveness of companies and territories: cluster technologies" was celebrated on 22-23 November in Perm, Russia. Discussions among representatives from all around Russia showed that the core aspects for further cluster development in the region, as well as in Russia, are fostering the cooperation inside the cluster and strengthening the interindustry links.

SMEs

Technology Profiles

Innovative cancer therapy identified need in the market

Tumors have a major socioeconomic impact having a severe prognosis. Conventional treatment consists of surgery, chemotherapy and/or radiotherapy. The most recent serious risk factor that affects the whole planet is the nuclear accident in Fukushima, Japan, but we must not forget the new technologies that promise wealth but may be associated with pollution accidents. The theoretical model developed by Research Beyond Limits Ltd (RBL) enables development of innovative treatment technologies in tumor therapy. RBL will conduct technical feasibility studies of proposed solution, associated industrial research. RBL will test the technology in laboratory animals (1st stage), cancer patients (2nd stage). RBL will protect intellectual and industrial property rights. The proposed technology is the use of innovative materials able to respond to laser stimulation depending on its wavelength. Consequently, this behavior can lead to useful applications:

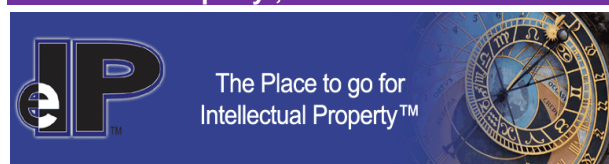

1. Thermal degradation can release drugs at target.
2. Creating a magnetic dipole, that can be stimulated in magnetic field. Secondary can be used as contrast agent for nuclear resonance imaging modified by external laser stimulation with or without tumor vascular damage, depending on the type of stimulation. The objectives of the proposal:

1. Testing technical feasibility/associated industrial research using innovative materials as targeted drug delivery system.

2. Testing technical feasibility and associated industrial research using magnetic dipole of innovative materials vascular destruction of targeted tissue (cancer areas) in the magnetic field of modified MRI system.

Research

9th Progress report on the SME participation in FP7

9th Progress Report on SME participation in the Seventh Framework Programme for Research & Technological Development (FP7) / 2007 - 30 September 2012 EU research funding for SMEs under FP7's Cooperation Programme beyond target and still on the rise.

This Progress Report analyses SME participation in grant agreements that have been signed up to the end of September 2012. In the previous report – the eighth SME progress report published in January 2012 – it was reported for the first time that the 15% target had been reached with 15.2% of the total Cooperation Programme used budget going to SMEs. This figure has further increased, to an extent that today the percentage of used Cooperation programme budget going to SMEs has reached 16.3%, which represents about 3 Billion Euros total.

Research for SMEs: demonstration activity

Demonstration projects are aimed to prove (demonstrate) the viability of a new solution (itself a successful outcome of a Research for the Benefit of SMEs project) that offers a potential economic advantage but which cannot be directly commercialised as further technological or other developments are required. This leaflet gives an overview of the Demonstration Activity grants funded under the Research for the Benefit of SMEs scheme.

Innovation and Entrepreneurship

Creating innovation cultures in companies: CEO's, people and collaboration tools

- Two strategies that are proving most effective for CEO's to make their companies more innovative
- The summary of the 2012 Conference Board CEO's Challenge show the top two CEO's concerns are innovation and human capital, and the top two CEO's strategies to cope with them are creating a culture of innovation and applying new technologies

More... [Innovation-cultures](#)

White space mapping: A powerful tool for seeing new innovation opportunities

"White spaces" represent a significant opportunity for most companies to identify unmet and unarticulated needs outside their core businesses that can be the source of profitable new products and services. White space, in the context of innovation, is where products and services don't exist based on the present understanding of values, definition of business or even existing competencies.

Successful examples of white space innovation abound, if you know where to look for them. For example, it has been used by companies thinking of exiting existing business (Intel exited the D-RAM business or IBM exiting the PC business) and companies looking high growth opportunities (Research In Motion getting into the tablet business), or companies wanting to explore strategic diversification (Virgin extending the brand into insurance and banking).

Do you want to provide services in another EU country?

The **freedom of establishment** and the **freedom to provide services** are both central EU principles governing the single market for services. These principles entitle EU entrepreneurs to establish a business in any EU country or to

temporarily supply services across borders, to other EU countries, without setting up an establishment there – e.g. by moving across borders, via the internet, etc. Find answers to your questions on the Your Europe Business portal.

Enterprise Development & Innovation Facility to support development of competitive SMEs in Western Balkans

To support the development of SMEs in the region – particularly innovative and high-growth SMEs (IHGSMEs) – economies of the region in partnership with the European Commission, the European Investment Bank Group and the European Bank for Reconstruction and Development will launch the **Enterprise Development and Innovation Facility (EDIF)** in Paris on 5 December 2012. A key objective of the Facility is to enable firms to access needed financing by providing direct financial assistance from equity funds and establishing credit guarantees to reduce investor risk. The EDIF is expected to attract approximately EUR 142 million of initial capital from the EC, IFIs, beneficiaries and bilateral donors, resulting in estimated leverage for SMEs of more than EUR 300 million.

Policy

Commission presents new Rethinking Education strategy

The youth unemployment rate is close to 23% across the European Union – yet at the same time there are more than 2 million vacancies that cannot be filled. Europe needs a radical rethink on how education and training systems can deliver the skills needed by the labour market.

The challenge could not be tougher in the context of widespread austerity measures/cuts in education budgets. The EC is launching a new strategy called Rethinking Education to encourage Member States to take immediate action to ensure that young people develop the skills, competences needed by the labour market, to achieve their targets for growth/jobs.

1st Annual Forum of the EU Strategy for the Danube Region, Regensburg, Germany, 27-28 November

The 1st Annual Forum of the EU Strategy for the Danube Region (EUSDR), was co-organised by the European Commission and Bavaria. In opening the Conference, Commissioner Hahn highlighted the Strategy work as key to Cohesion Policy as engine of growth. In a centre-piece speech, Chancellor Angela Merkel described the EU Strategy for the Danube Region as a new way to overcome 20th century division and conflicts in the Region, and as an important impulse for overall socio-economic development. It attracted more than 600 high level participants from the Region, including Ministers, showing the commitment of the countries to the Strategy.

This first Forum provided the overall possibility to discuss the implementation of the Strategy, to reflect on its added value and to assess best ways forward. The discussion started through two plenary sessions which address the strengths and the weakness of the region and what the Strategy can do for them. During the second day, the participants joined 6 workshops that tried to tackle the specific issues and challenges of the Strategy.

The conference was focused on the Strategy, these two days were also the occasion for a broader discussion on the challenges for the Region in its global perspective. Indeed the title was 'How can the Danube Region can help to build a more competitive Europe?'

OPEN DAYS 2013 kick-off, 11 December 2012

The Committee of the Regions (CoR) and the EC Directorate-General for Regional and Urban Policy (DG REGIO) invite interested stakeholders to join the OPEN DAYS 2013 Kick-off meeting (11:00-12:15, Brussels). Opened by Directors-General Gerhard Stahl (CoR) and Walter Deffaa (DG REGIO), the meeting will provide the opportunity to evaluate the OPEN DAYS 2012, present the 2013 thematic priorities and inform about conditions of participation and the timetable for 2013. More information will be posted beginning of December on the [OPEN DAYS 2013 website](#).

If you wish to participate at the Kick-off meeting, you can register [here](#) (one member per organisation only). You can also follow the meeting online - the link will be provided on the OPEN DAYS 2013 website.

URBACT Annual Conference 2012 "Cities of Tomorrow: Action Today"

The URBACT Conference, a EU exchange/learning programme promoting sustainable urban development, will bring together urban practitioners, policymakers, experts, to investigate solutions to the critical challenges faced by EU cities.

The conference is built on the European Commission's report "Cities of tomorrow - Challenges, visions, ways forward" (October 2011), which highlighted many of the major challenges that hundreds of cities in URBACT projects were trying to solve through sustainable urban development. Six parallel workshop sessions will be organised covering main challenges facing EU cities.

Participants will discuss how cities can tackle six key issues: (1) How can cities create more jobs; (2) How can cities foster active inclusion through social innovation; (3) How can cities fight against the socio-spatial divide; (4) How can cities deal with the urban shrinkage; (5) How can cities improve buildings' energy efficiency; (6) How can cities develop low carbon urban environment through better mobility and accessibility.

Connecting Smart & Sustainable Growth through Smart Specialisation; A guide for ERDF Managing Authorities

The shift to a low-carbon and resource efficient economy represents both a challenge and an opportunity for the Member States and the regions. In order to deliver benefits in terms of jobs and economic development, the deployment of a green economy needs to be very closely linked with innovations, both technological and non-technological.

This practical guide shows concrete ways ahead on how to connect smart and sustainable growth in the crucial framework of the forthcoming research and innovation strategies for smart specialization (RIS3). It highlights a broad range of good practices, often co-financed by EU's Regional policy, in various areas such as eco-innovation, the bio-economy and ecosystems as well as renewable energy or adaptation to climate change.

How do you think the world will look like in 2050?

Do you want to create your own vision of how the world will look like in 2050? Would you like to read other people's visions, vote on how desirable/likely they are to happen? Do you want to develop ideas for policies that underpin these visions? Or you like to support an idea, vote its probable impact. Would you want to link scientific evidence to your visions/policy ideas, announce events?

Events

8th EU Conference on Innovation & Entrepreneurship, Hogeschool-Universiteit Brussel, 19-20 September 2013

The conference ECIE provides an opportunity for scientific discussion, collaboration on a broad range of relevant fertile areas associated to recent trends in innovation. Practitioners, academics, people in the field of policy making are invited to present their research, to share their experiences in a broad range of areas related to the new trends in innovation & entrepreneurship. Topics can be related to all types of organizations (SMEs, YICs, spin-offs, MNEs, private/public research centres, Universities, Government Institutions). The call for papers will close on 28 February 2013.

EEE SSCI, Symposium on Computational Intelligence, Singapore, 15-19 April 2013

The event is one of the two flagship biennial international events sponsored by the IEEE Computational Intelligence Society (IEEE CIS) promoting all aspects of the theory and applications of computational intelligence.

The IEEE SSCI co-locates several technical meetings at one location. This event attracts top researchers, professionals, students from around the world. The IEEE SSCI 2013 (Singapore) now calls contributions from experts around the world. Tutorial \ Keynote Proposal Submission: Before 15th Jan 2013

International Conference on Computer Science, Mechatronics & Information Technology, ICCSMIT, 14 – 15 January 2013, Zurich, Switzerland

The International Conference aims to bring together leading academic scientists, researchers and scholars to exchange and share their experiences and research results about all aspects of Computer Science, Mechatronics and Information Technology, and discuss the practical challenges encountered and the solutions adopted.

More... <https://www.waset.org/conferences/2013/zurich/iccsmit/>

9th Nanoforum, 24-26 September 2013, Sapienza University, Rome

The Conference & Exhibition are organized under the motto: micro, nano, advanced technology, where research meets business. With nanoscience and nanotechnology (shortened to "nanotech") we are dealing with new scientific and technological approaches, whose aim is to study and modify matter on the molecular and atomic scale.

Nanotechnologies would be able to transfer the recent scientific knowledge in new products/devices. Nanotechnology refers to the possibilities opened by the direct investigation, control, modification of matter on the molecular/atomic scale.

Intrapreneurship 2012 Conference, December 13 2012, Paris

With the support of world-class speakers, the Intrapreneurship 2012 Conference aims to provide the audience with the various dimensions embodied in the Intrapreneurship concept. Some topics:

- The vision of an intrapreneur (3M Group)
- A startup accelerator in the media industry
- Open Innovation needs intrapreneurs
- Social Intrapreneurship

- The Garage initiative at Microsoft
- Many other theoretical and practical learnings

The event is jointly organized by [Global Enterprise](#) and [Novancia Business School](#).

IMP³rove Training: Introduction to the IMP³rove Approach, 12-13 December 2012, London, UK

Objectives: Effective support of SMEs in Innovation Management Assessment, Leveraging the IMP³rove Assessment Reports for value-adding feedback workshops. This is an excellent opportunity to gain access to international benchmarks on Innovation Management, to an international network of professional IMP³rove Consultants.

You can offer them a thorough innovation management benchmarking with their competitors, support them in re-gaining competitiveness. With the IMP³rove Assessment, the EU approach to better innovation management, you will be able to provide a comprehensive benchmarking report as basis for actions to improve the business performance of your clients.

Pre-requisites: At least 2 years of experience in rendering services to SMEs, Registration of a SMEs interested in executing the IMP³rove Assessment via the IMP³rove Platform

Target groups: Innovation Management consultants, cluster managers, intermediaries supporting SMEs in developing their Innovation Management capabilities.

More ... www.improve-innovation.eu ; improvecoreteam@atkearney.com

DIMP³rove Training: Introduction to the Innovation Management, 17-18 December 2012, Duesseldorf, Germany

Objectives: Introducing definitions and benefits of Innovation and Innovation Management, Describing the dimensions of Innovation Management, Demonstrating the impact of Innovation Management of profitable growth and introducing KPIs, Leveraging the trigger points to better support SMEs in developing their Innovation Management performance

Pre-requisite: At least 2 years of experience in rendering services to SMEs

Target groups: Experienced consultants, cluster managers and intermediaries supporting small and medium sized enterprises in developing their innovation management capabilities

European Seminar Practical Toolbox for EU Funds Project Managers Cost-Benefit & Value Analysis • Project Management • Evaluation Techniques, 25-27 February 2013, Berlin

The Practical Toolbox for EU Funds Project Managers will provide you with a set of practical instruments for your daily work in one package. Intensive workshops in the afternoon will follow up the skills learned during the morning sessions.

- **Day 1 – Cost-Benefit Analysis (CBA) & Value Analysis (VA)** the backbone of successful project appraisals.

- Decide whether to go ahead or stop a project
- Put your project on a sound financial basis and avoid immense risks

- **Day 2 – Project Management;** Efficient project management relies on elaborated methods such as:

- Advanced Project Cycle Management (PCM)
- The Logical Framework Approach (LFA)
- Results Based Management (RBM)

- **Day 3 – Evaluation Techniques;** Improve your current evaluation & prepare for new obligations.

- The new intervention logic of 2014-2020
- Future requirements regarding ex-ante evaluation and the impact evaluation method
- Elaborate your evaluation plan
- Drafting Terms of Reference (ToR)

You have the possibility to choose between our three specific training days or take part in the complete set of seminars.

Please find detailed information in the [event brochure](#). For direct online registration please use the [online booking form!](#)

Vocational trainings on European Subsidies access

- [EU funds from the European Commission: How to apply?](#)
- [Reporting & Management: How to successfully manage an EU funded project?](#)
- [FP7 Management & Reporting: Administrative and financial management of FP7 contracts](#)
- [Funds for Candidate Countries: How to obtain grants from the Instrument for Pre-accession Assistance?](#)
